| 33  |   |        |        |        | 1276   | 1445                                       | -                    |
| Basis in<br>trees--<br>number                       | -   | 6      | 7      | 24     | 27     | 8  | 72                   |

$\frac{1}{4}$  Trees climbed and measured by personnel of Work Projects Administration Official Project 65-1-42-166 -- "The Ohio Woodland Survey." Measurements taken at 12-foot log lengths above a 1.0-foot stump height. Scaled as 12-foot logs, and additional shorter top logs; top sections less than 8 feet in length scaled as fractions of an 8-foot log. Table prepared in 1940, by the equation method. Coefficient of multiple correlation (R) = .983. Standard error of estimate, 86.7 to 115.3 percent.
